

ESSA STATE PLAN DEVELOPMENT UPDATE

Updated: January 31, 2017

Each State is in the process of developing their first Consolidated State Plan under the Every Student Succeeds Act (ESSA), incorporating Statkeholder Engagment feedback as they develop plans to implement the new law.

State Education Agencies (SEAs) were asked by the US Department of Education to select one of two dates for submission of their State ESSA Consolidated Plans. Eighteen SEAs (17 states + the District of Columbia) announced their intent to submit plans to the Department of Education by April 3, 2017; the remaining states intedend to do so by the second date, September 8, 2017.

This update provides links to each SEA website where the most recent ESSA plan information can be found. The first section of the report has information on the first 18 SEAs planning to submit plans in April, and includes the status of their plan development; mentions of STEM in their plans (if any) to date; and information on the windows for public comment and feedback to help ensure those states idenfity STEM as a priority. The second section provides an overview of the other 33 states that have seleted the September 8th filing date. While basic information around their planning process is included for all these states, where available we have also included opportunities for action .

States Filing Plans by April 3, 2017 (18)

State	Status	Mentions of STEM in Plan	Opportunity to provide
		(if draft plan available)	feedback
<u>Arizona</u>	SUBMITTED	"State must offer strategies to	
		support LEAs to provide equitable	
		access to a well-rounded	
		education and rigorous	
		coursework in subjects in which	
		female, minority, English learners,	
		those with disabilities, or low-	
		income students are	
		underrepresented." (p. 49)	
<u>Colorado</u>	Key decision points for	N/A	Upcoming opportunities for public
	Assessment, School		comment on key decision points
	Improvement, Accountability,		around effective instruction and
	and Standards all finalized		coordination/consultation
